IEG PI NOTICE

DISTRIBUTION: ALL IEG PIs

No. 33-74

## TITLE/SIGNIFICANCE:

Bar Brick Radar Intercept Equipment in Travel Mode.

## COMMENT:

This piece of equipment is the signature item of most ELINT sites which support electronic counter-measures in the USSR. It can be mis-identified as antiaircraft, radar or an unidentified trailer when it is in a travel mode. The equipment in the vehicle park below is probably the full complement of a signal intercept regiment. Signature pieces of equipment of this unit are five Bar Brick, seven Twin Box, two Swing Box, five Spike Square, 277 Van Trucks and 125 trailers.
